

Key

1st European Country to Industrialize

2nd European Country to Industrialize

3rd European Country to Industrialize

European Countries that Began Industrialization

Later

Name: _____ Per: _____

**Spread of Industrial Revolution
Annotated Map**

Industrialized Countries / Industries:

Positive Effects of the Industrial Revolution:

Directions

Step 1:

Using page A12-A13, label the following..

Countries:

Britain
France
Belgium
Spain
Germany
Italy
Russia
Portugal

Oceans / Seas:

Atlantic Ocean
Mediterranean Sea
North Sea
English Channel
Adriatic Sea

Cities:

***Put a dot where the city
is located***
Frankfurt
Moscow
London
Paris

Step 2:

Use pages 297-298 to complete your key. Shade in the correct countries in the order they industrialized as indicated in the key. Within each country, write down the year that they began industrializing.

Note: Use the information on pages 297-298 to help you identify what countries industrialized and when, then use the map on page A12-A13 to help you correctly locate the country.

Step 3:

Create a list of the countries that embraced industrialization. Then next to the country create a list of the industries that they industrialized.

This should go in the left hand margin.

Example:

- Britain – Textiles, Railroads, etc.

Step 4:

Focusing on how society changed, write a 2-3 sentence summary explaining the positive effects of the Industrial Revolution. Use pg. 292-293 in your textbook for help.

This should go in the empty space below the map.
