

Inventions of the 1920s

Directions: Using pg. 468-469 in the textbook, complete the table below and the questions that follow. The table can be completed as notes, but make sure you answer the questions below in complete sentences. If you are unfamiliar with household appliances today, you may need to do a little outside research to explain how the product has changed over the last 100 years. 😊

Invention	Overview of Product How was it an improvement over previous methods?	How has the product changed over the last 100 years?
Refrigerator		
Washing Machine		
Iron		
Coffee Pot		
Vacuum Cleaner		

Questions:

1. According to the ads, why should people buy these devices? What would they get in return?

2. What new technologies would you consider to be "labor-saving devices? Why?
